Article&.com a New York based fashion online store selling apparel

Ecommerce • UI Kit • Magento • Responsive

WORK 5 / 5

The updating of the e-commerce website turned to redesign of the website, implementation of it and Frontend development with corresponding Backend support. Besides the desktop version of the store we took special care of the mobile one keeping it neat, stylish and clean.

Improved experience

- Checkout Process;
- Catalog;
- Product;
- Shopping Bag;

The home page is the first thing that influences a client's impression. Our team worked on menu, main slider, images of products, and footer in both desktop and mobile versions. As a result, we have improved fonts, images, and icons that create a functional and stylish home page.

Thanks for watching!

I'd love to hear from you.
